

# G&D NEWSLETTER

Gatter & Diehl's team of engineers attended the first ever virtual Greenbuild event in November. Our staff networked with the various exhibitors to review and oversee what new products are offered to complement our LEED projects.

Over the years, Gatter & Diehl has performed various LEED projects for large-scale facilities across the country. LEED is a beneficial factor not only to the client, but for the environment as well. We dedicate ourselves to keep as up-to-date as possible on all industry standards, and we appreciate what Greenbuild had to offer for our team to better assist our clients.

## INSTITUTING MITIGATION STRATEGIES FOR INFECTIOUS AIRBORNE DISEASES

In response to the COVID-19 pandemic, Gatter & Diehl has taken on a multitude of projects from multiple healthcare, senior living, educational, and high-end commercial clientele to create numerous mitigation solutions involving system designs that include: Exhaust, Filtration, Ultraviolet Light, Temperature Controls and Bipolar Ionization.

Over these past several months, our team has continually taken great strides in learning and gaining a deeper knowledge in combating infectious airborne diseases through various online seminars, meetings, events and investing in the latest technologies to optimize protection of patients, staff and the general public.

Call us today for any questions or concerns you have regarding your existing or new facility and how we can assist in ensuring your building is up-to-date with the most advanced and optimized systems available.

## WEATHERLY AREA SCHOOL DISTRICT INCORPORATES INTERNAL RENOVATIONS

After months of careful planning, design, and coordination with both the owner and architect, our team successfully completed engineering Weatherly Area School District's 165,000 sq ft. campus-wide project.

The elementary and high facilities were both designed with state-of-the-art MEP systems and safety features throughout the entire space. Superior controllability was key to the project to ensure the most comfortable and modernized learning experience for the students.

Our involvement through each phase of the project allowed for a seamless transition to the development of the renewed infrastructure.

## CAMP HILL NEARING COMPLETION ON MIDDLE/HIGH SCHOOL PROJECT

Great progress is taking place on the Camp Hill High School renovation project! As construction is ongoing, our goal is to address certain building deficiencies and code compliance issues as well as supporting the modernization of the interior of the school in an effort to assist the students and staff for an enhanced learning experience.

Keep up-to-date on all of our ongoing and completed projects by subscribing to this newsletter!
